

Safe Travel Abroad

The Federal Department of Foreign Affairs (FDFA) has launched a Smartphone app and a flyer for safe travel abroad. With the free "itineris" app, travelers now have Smartphone access to travel advice from the FDFA. They can also directly register to the "itineris" internet registration platform and, in the event of an emergency, contact the FDFA Helpline.

Following, please find the Helpline flyer, links to the app, and other useful information for your next travel:
