Dear Fellow Citizens,  
Dear Friends of Switzerland,

I would like to start this first SwissNews edition of the Embassy with the ascertainment that Switzerland and the Republic of Azerbaijan enjoy very good, broad and successful bilateral relations, which are continuously intensifying to the benefit of both our countries.

Among the many positive developments since my arrival to beautiful Baku in autumn 2015, I am delighted to recount and share with our readers some of the most significant events, visits, and projects. The past months featured quite a rich variety of high-level meetings like the visit of President Ilham Aliyev to the World Economic Forum (WEF) in Davos, bilateral meetings and dialogues in the political, economic and cultural fields. After a Swiss delegation led by the State Secretariat for Economic Affairs (SECO) came to Baku for the Joint Economic & Trade Commission, the Vice-Speaker of the Azerbaijani Parliament, Mrs. Bahar Muradova, paid an official visit to Berne a few weeks later.

We are confident that the remainder of the year 2016 will bring more political encounters and results, not to forget also the celebration of the Swiss National Day in August and some cultural events being prepared for autumn. For this purpose, we cordially invite you to regularly check the Embassy's website for news and events. In this newsletter, you find most of the articles in English while some of them are published in one of Switzerland's three official languages (German, French or Italian).

As regards the team of the Embassy, there will be a change of personnel this summer and we would like to thank our Vice-Consul, Mrs. Beatrice Spahr, at the end of her regular assignment for her great contribution to our daily work.

Together with the entire staff of the Embassy to which also belongs the Swiss Cooperation Office (SCO) Baku, I wish you an excellent summer.

Philipp Stalder

Ambassador of Switzerland

## Baku ospita Turismo Svizzera (Swiss Tourism)

ST-Director Federico Sommaruga with the Swiss Ambassador

In Aprile Baku ha ospitato Turismo Svizzera. Federico Sommaruga, Direttore dei mercati emergenti e dei progetti speciali, ha presentato con molto entusiasmo interessanti opportunità turistiche in Svizzera. Con lui una delegazione di 18 persone rappresentanti il settore del turismo (alberghi di lusso, servizio di limousine), della salute e dell'educazione elvetica. Insieme hanno reso visita ad Almaty, Astana e Baku. La delegazione Svizzera ha tra l'altro partecipato ad un ricevimento presso la residenza dell'ambasciatore di Svizzera, dove diverse personalità importanti azerbaigiane, incl. il Vice-Ministro della Cultura e del Turismo, Dr. Nazim Samadov, erano state invitate. La visita di Turismo Svizzera è stata molto apprezzata e coronata di successo.

La Svizzera con i suoi magnifici paesaggi, monumenti architettonici e storici, con le sue quattro lingue e rispettive culture culinarie, con le sue stazioni sciistiche ed i suoi centri di benessere & spa ha il potenziale di attirare il turismo caucasico. Sommaruga ha presentato un tour specialmente progettato per presentare le diverse regioni elvetiche lungo un tragitto di 1'000 Km.

Secondo Turismo Svizzera nel 2015 ben diecimila turisti provenienti dall'Azerbaijan hanno visitato la Svizzera e c'è il potenziale per aumentare ulteriormente quest'affluenza. In occasione del suo incontro Ministro della Cultura e del Turismo ha fatto notare che la reintroduzione di un volo diretto verso Zurigo o Ginevra agevolerebbe tale sviluppo. Un numero crescente di cittadini azerbaigiani visita la Svizzera anche per approfittare delle ottime prestazioni mediche e delle cure termali, così come della formazione scolastica (liceo e università). Le regioni attualmente più visitate dai turisti azerbaigiani e sono Zurigo, Ginevra, St. Moritz, Zermatt e Bad Ragaz, ecc.

## Gotthard - opening of the longest railway tunnel in the world

Azerbaijan works hard to establish the country as a logistic hub for transporting cargo from Asia to Europe and vice versa (Iron Silk Way). At the same time, Switzerland was proud to officially open the world’s longest railway tunnel – the Gotthard Base Tunnel – on 1 June 2016. With a total length of 57.1km, the tunnel is the cornerstone of the European Rhine-Alpine Corridor for freight transport and a part of Switzerland’s “New Rail Link through the Alps” (NRLA, Neue Eisenbahn-Alpentransversale).

This once-in-a-century construction project represents a substantial contribution to the benefits of the European transport infrastructure and symbolises Swiss values, such as innovation, precision and reliability. The opening of this monumental work received a wide coverage by the international media. Regarding the technical challenges that the project had to overcome, the reactions from abroad were characterized by admiration and appreciation.

# Swiss Development Cooperation

## Switzerland's Development Cooperation in Azerbaijan

The Swiss Cooperation Office (SCO) in Baku is a branch of the Tbilisi-based regional Swiss Cooperation Office in the South Caucasus. It was established in 1998 with the mandate to transform the humanitarian assistance into technical cooperation. The legal base for the Swiss cooperation partnership with Azerbaijan is the bilateral Agreement on Technical, Financial and Humanitarian Cooperation signed in 2006.

Until now, Switzerland has implemented more than 100 projects for the last 17 years in the country. The total volume of the projects funded by Swiss tax payers' money is about USD 90 million. At the beginning of our cooperation, Switzerland mainly focused its activities on the support of Internally Displaced Persons (IDPs) and included also smaller grants for various types of projects varying from small economic initiatives to education and culture. Since 2008, Switzerland's support is provided in a more systematic way, focusing mainly on macroeconomic support, private sector support and income generation as well as infrastructure.

Switzerland's development cooperation office in Baku, which is an integral part of the Embassy, consists of five persons: The head of office, Mrs. Simone Haeberli, two national programme officers and two administrative staff. Currently, the new cooperation strategy for the South Caucasus (2017-2020) is being elaborated, focusing on supporting economic development and more efficient institutions in the region. It is part of and fully aligned with Switzerland's overall message on International Cooperation 2017-2020 worth CHF 11,1 billion, which is currently being discussed in the Swiss Parliament.

## Culture, Education & Sports

### La semaine de la francophonie

À l'occasion de la *semaine internationale de la langue française et de la francophonie*, l'Ambassade de Suisse à Bakou a présenté une série d'événements, appelés «*10 mots au goût*», dédiés à la tradition culinaire et culturelle de la Romandie. Un accent spécial a été mis sur une cuisine savoureuse et saine, qui utilise surtout des ingrédients locaux (concept km zéro). Pour cela l'ambassade a invité tout spécialement de Suisse le Chef jurassien Pascal Aubert, qui nous a rejoints de Le Noirmont/JU.

La semaine suisse a commencé le 13 avril 2016 par l'émission télévisée culinaire «Nus Olsun», transmise en directe sur Khazar TV. Chef Aubert et l'ambassadeur de suisse étaient les invités d'honneur. Chef Aubert a préparé et commenté des recettes helvétiques succulentes, tandis que l'ambassadeur de Suisse était interviewé sur la Suisse et ses traditions. Le jour suivant a eu lieu la "Swiss Master Class" auprès de l'hôtel Boulevard (White city, Baku). Un superbe trio de chefs - Pascal Aubert (CH), Thibault Béra (FR) et Orkhan Mukhtarov (AZ) - ont donné une démonstration pratique de cuisine avec spécialités de trois Pays à un public d'étudiants des différentes

écoles (membres de l'Association culinaire National de l'Azerbaïdjan). Pour terminer un dîner Suisse ouvert au grand public a été organisé le 15 avril 2016 auprès de l'hôtel Boulevard. Le Chef Suisse Pascal Aubert a créé trois menus présentant des plats de différentes régions suisses. Le point culminant a été la mousse au chocolat Toblerone, servie dans une petite tasse faite en chocolat. Le publique en était extasié et nous aussi!

Toutes les recettes présentées pendant cette semaine sont disponibles sur le site Internet de l'Ambassade de Suisse:

## Presentation on Swiss Higher Education

A *Swiss Day* was organized on 4 May 2016 by the Embassy at the prestigious ADA University in Baku. Following the introduction by Vice-Rector, Mr. Fariz Ismayilzade, the Swiss Ambassador welcomed the students from different universities and made some introductory remarks regarding the bilateral relations between Switzerland and Azerbaijan.

*Students of ADA after the presentation*

The main emphasis of the *Swiss Day*, however, was to inform the audience about higher education opportunities in Switzerland. The lively presentation of the Embassy's academic intern, Mr. Enur Imeri, was followed by the audience with much interest which was not only fueled by the topic itself but by a quiz about facts and figures of Switzerland. The students had the chance to win some presents provided by the Embassy and the Swiss company Nestlé. Following the presentation, the students could also meet and discuss with the Embassy team and taste some delicious Swiss cheese 'Tête de Moine'.

## Swiss water polo team in Baku

One of the pleasant surprises for living as expats in Baku is that from time to time we get the chance to cheer sport teams from Switzerland. In 2014, the Swiss tennis player, Stefanie Vögele, played in the Baku WTA Half Final while the team of the Young Boys Football Club played a European League game against Qarabağ in August 2015. In February 2016, the Women's volleyball team Volero Zürich played a Champions League game against Locomotive Baku. Each of these Swiss teams had the support of a small Swiss contingent of fans who could be seen waving our distinctive square flag in support. Even though Switzerland is approximately 3,400 kilometers from Baku by air, you feel a little bit closer to home when you can cheer with "Hopp Schwiiz."

A small Swiss fan group also gathered for the matches of the Swiss national U19 water polo team which competed in the European Championship Qualification-Tournament in Baku in May. Thanks to our visibility we were approached before the game by the group leader of the Swiss team and parents. This gave us the opportunity to learn more about the rules of the game. The Swiss Team was impressed by the world-class swimming center in Baku which was built last year for the European Games. Back home they only dream of such facilities.

*Swiss colony in Baku supporting the Swiss team*

The Swiss team was not too optimistic about winning against Azerbaijan as they knew that the host team had top players. Even though they played well and were ahead after the second quarter, the match turned in the third quarter and ended with the victory of the Azerbaijani team. We can only imagine how difficult it is to play in the water, catching a ball, jumping and throwing it without touching ground. Plus, we see only a part of the action because there is a lot of contact under the water.

## International Day at the Baku International School (BIS)

Fern ab der Heimat legt man plötzlich wieder mehr Wert auf nationale Sitten und Gebräuche. So kam es dann, dass ich in der amerikanischen Schule in Baku unsere Heimat, die Schweiz am International Day repräsentieren konnte. Mit Stolz haben wir Käse, Schokolade, selbstgebackenen "Rüebli-Kuchen" und Birchermüesli zum Verzehr angeboten, die Nachfrage war entsprechend gross und bald war alles aufgegessen. Meine Tochter und ich haben in alten Nationaltrachten heftig serviert und über die Schweiz philosophiert. Das Interesse war gross und zeigt einmal mehr, dass der Nymbus Schweiz im Ausland immer noch auf reges Interesse und Bewunderung stösst. Deshalb würde es uns Schweizern oft gut stehen, uns im internationalen Kontext etwas selbstbewusster zu geben, traditionelle Schweizer

Swiss booth at the BIS

Bescheidenheit hin oder her. Mein Fazit dieses umtriebigen Tages, es hat Spass gemacht unsere schöne Heimat im fernen Ausland zu vertreten. Ein grosses Dankeschön der Schweizerischen Botschaft, welche uns mit Werbematerial und vaterländischer Bekleidung tatkräftig unterstützt hat.

## Varia

### Team building event to Shamakhi

On the 31 of May, the whole team of Embassy including colleagues from the Swiss Cooperation Office chose Shamakhi region for their annual excursion and team building event. As the capital of Azerbaijan's Shirvanshah kingdom from the 8th to 15th centuries, Shamakhi takes an important place in the history of the country. The team visited several historical sites such as the mysterious spiritual place Diri Baba Mausoleum located in Maraza city near Shamakhi.

Our group also enjoyed a visit to Juma Mosque of Shamakhi, which dates back to 743-744, and took the opportunity to see the impressive Astrophysical Observatory launched in 1958 and considered still as of today as an important site for research and scientific purposes. With fastly changing weather and enjoying nice view at Sakit Gol (Silent Lake) as well as exercising some sportif and recreational activities at fashionable Shamakhi Palace Hotel we concluded this memorable outing day.

## Eindrücke unseres Hochschulpraktikanten (impressions of our academic intern)

Nach fünf intensiven Monaten geht mein Hochschulpraktikum bei der Schweizerischen Botschaft in Baku per Mitte Juli zu Ende. Diese erste berufliche Erfahrung beim EDA gab mir sehr wertvolle Einblicke in zahlreiche Aspekte der Arbeit am Puls der Schweizer Aussenpolitik. Meine Kenntnisse der Funktionsweise einer Botschaft sowie mein Verständnis der Schwerpunkte der Schweizer Aussenpolitik aber auch der Politik von Aserbaidschan und Turkmenistan wurden durch die Betreuung durch ein ausgezeichnet qualifiziertes und aufgeschlossenes Team von Vorgesetzten immens gefördert. Während des Praktikums konnte ich nicht nur das politische, wirtschaftliche und soziale Geschehen des Landes verfolgen, sondern auch an diversen Kulturprojekten und Anlässen zur Promotion der Schweiz mitwirken und in die Visasektion reinschnuppern.

Die Diversität und Harmonie vieler Traditionen macht Aserbaidschan zu einem einzigartigen Land. In der Hauptstadt Baku konnte ich die Resultate des wirtschaftlichen Booms vom letzten Jahrzehnt selber sehen und fühlen, obwohl mein Praktikum während einer Phase des wirtschaftlichen Engpasses stattfand. Aserbaidschan beruft sich zu Recht auf seine multikulturelle Diversität und präsentiert sich auf internationaler Ebene von seiner westlichen und säkularen Seite, die auf eine für Aserbaidschan charakteristische Weise mit leicht orientalischem Touch angehaucht ist. Für die Betreuung und die Möglichkeit zu diesem Einblick und temporären Einstieg in die Welt der Diplomatie möchte ich mich bei meinen Vorgesetzten und dem ganzen Team herzlich bedanken.

## Fact & Figures

Three political levels share power in Switzerland: the Confederation, the 26 cantons and over 2,300 communes.

The Swiss federal government, (the Federal Council), is made up of seven members, who are elected by parliament.

The Swiss parliament, or (Federal Assembly), has a total of 246 members, who are directly elected by the people. Switzerland has a bicameral parliament: the National Council (200 members) and the Council of States (46 members).

**Switzerland. A WELL-BALANCED MECHANISM**

**1+26+2300=1**

Power is shared by the federal government, the 26 cantons and more than 2300 communes.

**SUBSIDIARITY**

The cantons and communes have authority over a wide range of matters (e.g. schools, hospitals, tax and policing) and a great deal of autonomy. The federal government only takes on tasks that the cantons and communes cannot manage alone.

Federalism is what allows the different aspects of Switzerland, with its four national languages and large geographical differences, to coexist. Federalism is one of the founding principles of the Swiss Confederation in 1848.

Every canton has its own constitution, parliament, government and courts. About a fifth of communes have their own parliament, in particular cities.
